Hot Mill Thickness Gauge Orders for China

RSI (Radiometric Services & Instruments LLC) has received two orders for new hot mill x-ray thickness gauging systems for installation in China via the *RSI* office in Shanghai, China.

Orders for hot mill x-ray thickness gauging systems from Qianan Yanshan (China) and Fujian Desheng (China) were received in June 2006 and are scheduled for shipment in late 2006 and early 2007 respectively.

RSI is a manufacturer of x-ray thickness gauges and coating gauges. We also offer system upgrades for older thickness and coating gauges, spare parts, repairs, and field service.

RSI is headquartered in Frederick, Maryland, with a sales and service office, *RSI Shanghai*, in China.
